

Turn your toilet into a bidet, simply by changing the seat!

## The Supreme BB-1000

Pamper yourself with a gentle aerated warm aerated stream. With convenient remote control, the Supreme BB-1000 allows you to personalise all functions including water temperature, pressure and even gentle cycling massage features. Follow washing with the touch of button for an adjustable warm air dry. All the while you enjoy an invitingly heated seat that can also be adjusted to the warmth you desire.

The Supreme BB-1000 is equipped with a state-of-art "smart power saving" function that calculates internally the most frequently used hours of the day for maximum savings on electricity consumption. Along with the most advanced "capacitance" seat sensor and in-built "Self Diagnosis" system, the Supreme BB-1000 is truly the most technologically advanced and complete bidet seat in the world today.
